UPJOHN'S IRIS

OREGON GROWN

Connections we have made with a grower of some of the finest Iris fields in the state make it possible for us to send you this long list of wonderful varieties of Iris and you may be assured the same consistently fine stock and careful treatment accorded to our Gladiolus customers.

NO SHIPMENTS OF IRIS ROOTS WILL BE MADE BEFORE AUGUST

The Iris is one of the most easily grown flowers in the garden. Established roots flourish and multiply for years with the minimum of care and the planting is very simple. Simply place the root in your prepared soil where drainage is sufficient so water will not stand on it, leave a little of the upper part of the root exposed, and firm into the ground, a gentle pressure of the foot is good, and the job is done. Of course, proper cultivation and some care helps, but your Iris plant will keep going year after year with but little trouble or worry on your part. A long blooming spring season is the reward by use of various varieties and often many flowers are available for Memorial Day when outdoor grown flowers are scarce and in big demand. No garden is complete without a selection of Iris. They are easily divided and propagate rapidly.

NO ORDER, EXCEPT COLLECTIONS, FOR LESS THAN \$3.00

Unless otherwise indicated as in the collections we send out no order for Iris amounting to less than \$3. And all orders shipped will go prepaid. So please do not submit less than a \$3 order of Iris roots as we cannot afford to handle them prepaid and will simply have to return your remittance.

SOME COLLECTIONS

We have arranged the following collections which will be sent prepaid in August and will give a wide range of beautiful blooms:

- Twelve named varieties, all our selection, all labeled and sent postpaid for\$2.50
- Twelve excellent Iris generally listed for more than \$6.00, all labeled and sent prepaid\$3.00

The foregoing collection includes Prosper Laughter, Sunset, Phyllis Bliss, Afterglow, Shekinah, Lorelei, Virginia Moore, Lent A. Williamson, Princess Beatrice, Prospero, Crimson King and Diadem. We reserve right to substitute in this collection with equally good or more expensive varieties but will do so only in event our stock of any of those listed is depleted.

Unlabeled Collection—We will send collection of 24 Iris roots, unlabeled and mixed, prepaid for.....\$2.50

IMPORTANT NOTICE

This is the only Iris list we will issue this year although copies will be available for your friends if asked for. We suggest if you plan to order Iris later you lay this list aside to have it available. However, if you lose it do not hesitate to send a postal for another copy. Please remember we send all our orders prepaid, shipment will be made in August only and we cannot handle any order of less than \$3. Cash with order or 25 per cent of order will hold until fall with balance C. O. D.

LONG SPURRED COLUMBINE SEED - \$1.00 THE PACKET

We have arranged with Miss Mabel S. Creighton, of Jonesmere Farm, near Salem, grower of some of the finest specimens of super long spurred Columbines (*Acquilegia*) we have ever seen, to handle her seed crop. Columbine seeds may be planted late as mid-July or in frames in August for the succeeding year's blooming. Or may be planted in the spring to grow on into larger plants to set out in the fall. Out of one of Miss Creighton's large packets of this seed should be obtained a heavy percentage of wonderful long spurred varieties. Remember, like all plants, Columbines will repay you for the care you give them. These seed are \$1.00 a packet. Miss Creighton's farm is annually visited when the Columbines are in bloom by large numbers of flower lovers who come great distances to see her plants.
